ABOUT ME

Passionate AI Engineer and Full-Stack Developer skilled in React, .NET, and MSSQL. have also worked on python with keen interest in Ai.

Experienced in building intelligent web applications integrating AI models with scalable backend solutions.

Currently exploring Transformer architectures, LLMs, and Retrieval-Augmented Generation (RAG).

Motivated to contribute to projects involving AI, Data Science, and modern software engineering practices.

EDUCATION

University of Management and Technology (UMT), Lahore| 2023-2027

Bachelor of Science in Data Science

- University of Management and Technology (UMT), Lahore | 2023 – 2027
- Key Coursework: Machine Learning, Deep Learning, Artificial Intelligence, Database.
- Projects: Built AI web apps using Python, React, .NET, and MSSQL
- Research Focus: Transformer models, LLMs, and RAG architectures

WORK EXPERIENCE

Full Stack Developer (React / .NET / MSSQL)
Acme-One | 2025

- Built and deployed responsive web applications using React, .NET, and MSSQL
- Developed RESTful APIs with secure authentication and user management
- Collaborated with AI team to integrate ML models using Python and scikit-learn
- Improved database efficiency by optimizing queries and indexing

Machine Learning / Data Science Intern
Acme-One | 2025

- Developed ML models with Python, pandas, and scikit-learn, improving accuracy.
- Performed data cleaning, EDA, and feature engineering for enchancment
- Explored transformer-based architectures and Retrieval-Augmented Generation (RAG)
- Deployed Sentimental Analysis small-scale ML,DL Model for classification tasks

SKILLS

- AI & ML: Transformers, RAG, NLP, LLMs, Neural Networks
- Tools: Git, Postman, Cursor.
- Programming: Python, C++, JavaScript, SQL
- Frameworks & Libraries: React, .NET.
- Databases: MSSQL, MySQL
- Soft Skills: Problem-solving, Collaboration, Research, Adaptability
